

To the Nordic Companies at the Czech Market

Let me take this opportunity and invite you to the membership at the Nordic Chamber of Commerce ([short video describing following text, less than 2 minutes](#))

What is the Nordic Chamber?

The mission of our Chamber is not only to serve and promote Nordic businesses, but also to function as a vehicle to develop commercial relations between the Czech Republic and Denmark, Finland, Iceland, Norway and Sweden.

The Chamber is a non-profit organization and has no political aims.

We are constantly working to improve the business climate in the Czech Republic, not only by promoting Nordic values such as transparency, equal opportunities and sustainability.

Nordic Chamber of Commerce provides opportunity for members, who create local jobs and drive the local economy, to work with government and the public.

The Chamber starts to work closely with Municipal government in regions to act as an umbrella organization to lobby the provincial governments on issues of mutual concern. Equally important is that the Chamber can then support member's business on the issue that concerns their entrepreneurship.

The Chamber speaks for the business community at public hearings, to the media and behind closed doors. It should be recognised as the **"Voice of the Nordic business"**.

Benefits to Membership

- Excellent networking opportunities at regularly organized events and informal gathering
- A forum to get in contact with members from different industry segments and interact with them, make contacts and give your business greater exposure for those who are likely to be new clients
- Chamber`s eNewsletter and communication methods keep business up to date on chamber`s events and activities
- Provides an excellent platform for advertising directly to the most influential businesses
- Education and training on Best Practices through learning opportunities, seminars
- Information sessions or Working groups to help small business to operate more effectively

Ultimately, whether you join the Chamber to have an impact in the community, to network and grow your business, or to gain more direct benefits, it would seem that belonging to the Chamber of Commerce is simply "Just Good Business".

We build a platform with various touchpoints crafting our joint targets. From exclusive exposure to strategic branding, we are giving your audience a voice and a chance to interact with your values.

In cooperation with several other foreign chambers, business associations and members of the Parliament of the Czech Republic, the Nordic Chamber actively supports the Reconstruction of the State program – an anti-corruption campaign – and the Platform for transparent public tenders. The Chamber is also cooperating with Forum 50%, and NGO which promotes equal representation of women in Czech politics and business life.

The goal of all our events is to give Nordic Chamber members access to a variety of business-building tools, resources and industry leaders and experts as well as the movers and shakers in the public and private sectors. As a Chamber member, you can join a committee or task force and be part of our business community's voice. The level of involvement in the Chamber's activities is up to the Member.

If you are interested please contact our ED Lea Turcarova (info@nordicchamber.cz or phone: +420 774 123 370), she will introduce the Chamber and opportunity in more details during the personal meeting.

You are very welcome to join us!

Stefan Lager
President
